- Summer Camp** - Registration forms available now!

# Partnering Together for Our Children's Success

## SCREEN TIME & SOCIAL MEDIA AWARENESS

**Dear Parents & Guardians,**

As educators, we are seeing the growing impact of excessive screen time and unmonitored social media use on our students' learning, behavior, focus, and social interactions. Many children are imitating inappropriate viral trends and struggling to stay attentive and engaged in school.

We ask for your partnership in helping our students develop healthy digital habits.

### **Important Ways to Help at Home**

- Limit daily recreational screen time
- Remove phones, tablets, and gaming devices at night
- No devices in bedrooms without supervision
- Monitor apps, videos, social media, and online conversations
- Encourage reading, playing with toys, outdoor play, family conversations, and rest
- Help students understand that not everything online is appropriate or safe

### **Why It Matters**

Too much screen time can affect:

- Focus and academic performance
- Sleep and emotional health
- Respectful behavior and communication
- Social skills and self-control
- Decision-making and maturity

When school and home work together, students are more successful academically, socially, and spiritually.

### **Thank you for your partnership**

Let us continue working together to protect, guide, and support our children as they grow in wisdom, character, and faith.
